I spoke to [REDACTED] about this and it sounded like you had already been in contact with him about a path forward for this. It might be good for [REDACTED] to also try to ask for patience from them since RAB can't really give us a clear timetable. Let me know though if there's anything I can do to help since [REDACTED] is out.

Dear [REDACTED]

I am writing, again, to request a brief telephone discussion with you concerning the P-20-0025 review process. A I have previously mentioned, this PMN reached a point of agreement that the original use was eligible for a "Not Likely to" determination, but has become stalled due to the addition of other categorical uses that were agreed in August to require very quick evaluation based on the data already provided.

Could you please reply with a time that I can call you for discussion? The economic impact from the time elapsed is having significant financial impact on the Submitter. Your assistance will be greatly appreciated.

Best Regards,

Jim
